

Cold Storage for Furs.

Our method for storing furs during the summer is the best system known to science. It is absolute protection and preserves the life and usefulness of the garments. We are now prepared to remodel fur garments for next season. The new styles have already been chosen, and doing the work during the summer months saves time, and then, again, it costs less. Expert attendants are here, whom you may consult regarding all repairing, remodelling or storing.

Big Home Furnishing Sale.

The scope of this store's usefulness could at no time be better demonstrated than now, when any home furnisher with the most vague ideas can come in here and find at her finger tips every needed article for the complete furnishing of a home, whether that home be the simplest cottage or most extensive mansion. And beside the goods themselves, even if you don't want to buy, there are hundreds of suggestions for those who merely wish to re-arrange.

The furnished suit of rooms on the third floor has innumerable ideas of value to every housekeeper—the model nursery is unique and worth a visit—the color effects of China and Japan in the display of Mattings—the marvellous designing of the Orient is felt in the Rug Room—the artistic in the Furniture—the decorative in the China—the practical in the House-furnishing and art itself in the Picture Gallery, where the pencil marks of genius are evident everywhere. The truest economy lends its aid to all and gives the purchaser advantages that have been equalled no season before.
